EDUCATION

B.S. in Information Systems   **Dec 2021**
University of Utah   Salt Lake City, UT
- Primary Coursework: Systems Analysis and Design, Web Based Applications, Data Warehousing, Data Structures and Java, Business Statistics

Full Stack Web Development Bootcamp   **Oct 2017**
DevMountain   Provo, UT
- Certified in full stack web development

SKILLS

Web Development: React, React Hooks, JavaScript, Redux, CSS, JSS, JSX, HTML, Node, Git, Jest, Cypress
Integration Experience: Stripe, Google Maps, Google Analytics, HelloSign, Heap, SendBird, Auth0, LogRocket, MapBox
Frameworks: React, Material UI
Programming: Java basics, PHP basics, SQL
Design: Adobe XD, Sketch, Adobe Photoshop
Cloud Platforms: AWS Amplify Serverless Stack, AWS Basics, Google Cloud Basics
Team Tools: Jira, Scrum, Agile

EXPERIENCE

React Web Developer   **Oct 2017 – Oct 2020**
Chunker.com   Lehi, UT
- Lead front end web developer responsible for most of the UI/UX and front-end code, including UI design.
- Built Chunker.com to be mobile friendly and scalable with modern tools like React Hooks and Material UI.
- Reduced production app size and potential bugs for scaling by restructuring code base to improve component reusability.
- My designs and development resulted in a modern web app that assisted in raising over $1 million in angel funding.

Field Tech   **Summers of 2014, 2016, and 2017**
Provo City School District   Provo, UT
- Worked on a team to install a networked security system.
- Troubleshot computers to determine problems and find solutions.
- Imaged a fleet of new MacBook's, Windows desktops, and iPad.
- Only trusted field tech with database access.

Tech Support   **March 2017 – May 2017**
CallDrip   Salt Lake City, UT
- I assisted users with tech support over the phone.

PROJECTS

Web Based Applications – www.chunker.com   **Aug 2017 – Oct 2020**
- Mobile friendly, full-stack, React app that uses MaterialUI, Redux, Jest, Stripe, Twilio, Google Maps, SendBird, and more. Chunker is a platform for sharing commercial warehouse space.

AWS Amplify Fundamentals –www.ninjaspacemonkey.com   **May 2020 – June 2020**
- A web app built on AWS's serverless Amplify Stack. This app utilizes Amplify SDK, IAM, AWS Cognito, Lambda, API gateway, and DynamoDB

ACTIVITIES

Tech Meetups   **Jun 2017 – Present**
- I enjoy going to coding meetups and I am most active with the ReactJS Utah meetup.

Snowboarding, Mountain Biking
- I love the mountains and finding ways to exercise while having fun.
